

SAGTA - FOSS4G Africa 2017

EXHIBITOR PROSPECTUS

The OSGeo Africa chapter and the QGIS South Africa User Group Conference invite you to participate at the first regional FOSS4G event in Africa and the first national QGIS User Group Conference in South Africa to be held at St John's College, Johannesburg, South Africa from **25th June to 1 July 2017**. We hereby invite all potential exhibitors to showcase their products and services to the Open Source community. FOSS4G represents the gathering of the Open Source Geospatial community with a deep focus on free and open source geospatial solutions under the auspices of the Open Source Geospatial Foundation – OSGeo (www.osgeo.org).

South African GeoSpatial Science and GIS into the future.

Geographical Information Systems (GIS) is part of the curriculum in South African schools, yet schools and teachers are poorly equipped to teach it, let alone use it to teach Geography and other subjects. That's why we've teamed up with the world of secondary and tertiary education to explore challenges teachers and GIS practitioners face and to come up with suggested solutions going forward. The **Southern African Geography Teachers Association (SAGTA)** in collaboration with OSGeo, QGIS and GeoforAll is hosting the FOSS4G 2017 conference at St John's College, Johannesburg, South Africa. A draft programme and conference information are available at: <http://qgis.org.za/en/events/foss4g-southern-africa-and-qgis-user-group-conference/>.

The conference will include pre- and post-conference trips/excursions (see the draft programme for details): <http://foss4g-africa.org>.

The conference is planned on world class standards and we would therefore like to invite your company to exhibit at this amazing event.

Exhibitor Package Includes:

Towards ensuring your company gets the best exposure we have compiled the following exhibitors package:

- 1 stand of 3mx3m demarcated in the areas where most social interactions such as lunches and tea times will take place.
- 1 member will have conference package privileges. More than 1 stand per exhibitor can be booked.
- Should your company require more staff to attend the conference and workshops they can enquire about the discounted rates for exhibitors.

Companies can also rent more than 1 exhibition space. The exhibitor package is calculated for both the SAGTA and FOSS4G Africa events.

There are a total of 25 Exhibition spaces available.

Cost: R10000 for all five days for an exhibition stand in the REA auditorium where all plenary talks and tea sessions will be held.

Or R6000 for either SAGTA or FOSS4G (three days each)

Marketing of the event will take place on several different platforms including but not limited to:

- **OSGEO**
- **FOSS4G** (webpage and list groups)
- **SAGTA** (webpage and associated groups)
- Conference website

The Venue: St John's College, Houghton, Johannesburg, South Africa
